

CONCRETE BUCKETS

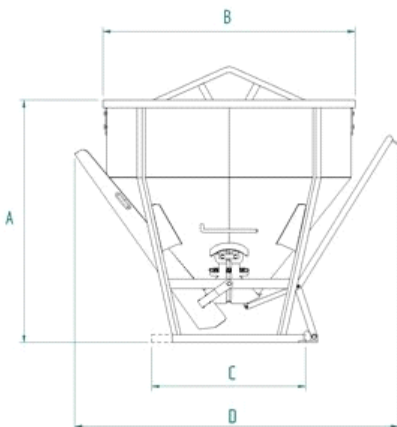

Concrete bucket with central and side unloading

CL Model

LOW BUCKET, HIGH QUALITY

We offer our customers our C series of buckets with reduced height, ideal for batching plants and to be filled with truck mixers. This model presents a **side chute**. This model is manufactured in many different capacities as listed below. We offer also the C series without the side chute, check it in our buckets list! These two models are also available in the galvanized version, that guarantees a long lasting quality thanks to the hot-dip galvanization process that forms a coating of corrosion-resistant zinc which prevents corrosive substances from reaching the more delicate part of the metal.

All our concrete buckets are built to meet or exceed the regulations of CE UNI-EN and ASME and come with the required labels, certificates and user and maintenance manual. All our products are covered by a 1-year warranty (EU Directive).

MODEL	CAPACITY (Lt)	DIMENSIONS (mm)				CAP. (kg)	WEIGHT (kg)
		A	B	C	D		
CL-15	150	560	920	660	1100	390	60
